Everything we checked · Sample Dental Practice

This page is the working, not the report. Everything we looked at, what we found, and what we could not check from outside. Read it if you want to check our work. The first two pages are the findings.

The working below is in 12 rows. We measured 11 of those rows, and could not test 1 from outside. The score on page one is your points in the table below, out of 100. Sections 01 and 02 under it show the working for those points, plus your website and your ads. They add nothing to the score.
